There are three Resolutions that we are aware of regarding Agremax. A 1996 Resolution that it is not a solid waste, a 2000 Resolution ratifying the 1996 Resolution, and a 2005 Resolution allowing use as daily cover at the Salinas Landfill as a 180 day demonstration program. The 1996 Resolution does not establish any criteria for Agremax use, so there is nothing to violate as far as the Resolution goes.

Ex. 5 - Deliberative
